

2018-2019 Preschool Registration

Building a Strong Foundation One Step at a Time

Our Preschool program is D.C.F.S licensed and N.A.E.Y.C. (National Association of the Education of Young Children) accredited. We offer a variety of classes to help encourage the growth and development of each child. Each age appropriate class builds on to the next providing children with the strong foundation needed to become successful life long learners.

Mini Preschool

For children who are too young to enroll in three year old preschool, this program will provide an opportunity to learn the routine of preschool, gain confidence, and develop independence. This program will provide a comfortable and positive beginning. Children need to be able to take care of their bathroom needs. Pull-ups are allowed until December for children who are in the process of potty training but need the reassurance of pull-ups. **NO DIAPERS!** Children must be 30 months by September 1, 2018. Proof of residency and birth certificate are necessary. Registration is taken at the Pat Shephard Center only.

3-Year Old Preschool Programs

3 Year Old Preschool

Our Preschool classrooms provide a nurturing environment for your child's first learning experience. Learning through play is a child's principal means of discovery. The InvestiGator Club™ curriculum allows the child the opportunity for scientific exploration, problem solving and dramatizations within the security of a child's play. Children will enhance their social and language skills and develop independence. Some of the curriculum goals include: following simple directions, colors, shapes and name recognition. This class emphasizes the development of coordination needed for jumping, catching, stacking, gluing, drawing and cutting.

4-Year Old Preschool Programs

Pre-Kindergarten

Children will develop kindergarten readiness and self-confidence as they master our InvestiGator Club™. This curriculum appeals to your child's curiosity and sense of wonder. It challenges children to think, solve problems, communicate and investigate their world. Through play, children gain independence, acquire basic readiness skills in literacy, math, science, social studies, oral language, fine arts and music. Field trips throughout the year enhance the child's learning.
