

MEDICATION IN THE CLASSROOM

Schaumburg Park District Policy

Schaumburg Park District recognizes that at times some children are able to attend regular preschool because of the effective use of medication in the treatment of disabilities or illnesses. The Park District believes that medication should be administered in the home, but recognizes that at times medication must be given during the school day. In such cases the administering of medication to students is subject to the following regulations:

1. Necessary medications may only be administered to a child in a Schaumburg Park District program with written parental permission. Parents must complete the authorization to dispense/administer before medication can be administered.
2. Prescription medications must be in the original prescription bottle with the label intact.
3. All medications will be stored in a designated container kept in the classroom.
